A multiple combination experimental electromedicine machine. Developed by biophysicist Thomas Valone, Ph.D., P.E., author of Bioelectromagnetic Healing. This is a new intermediate PREMIER 2000 Lakhovsky model that really works! It provides numerous frequencies due to the amazing Lakhovsky multiwave oscillator antenna. This experimental device is based on the theories of G. Lakhovsky as recorded in the book, The Waves That Heal, The New Science of Radiobiology by Mark Clement and other sources. The Premier 2000 has a 250,000 volt Tesla Coil for the base and a wonderful concentric set of gold, silver, and brass segmented loops for the antenna mounted on Lexan. 12" x 12" x 30" - 27 lb. wgt.
