

Curriculum Vitae

Thomas Francis Valone

Office: 5020 Sunnyside Avenue, Suite 209
Beltsville MD 20705
301-220-0440 iri@erols.com
Home: 9625 51st Place College Park MD 20740
301-513-5242

EDUCATION:

Ph.D. in General Engineering, Kennedy-Western (Warren National) Univ., 2003

Concentrations: Physics, Engineering R & D, Trend Forecasting

Dissertation: Feasibility Study of Zero-Point Energy from the Quantum Vacuum for the Performance of Useful Work

Thesis Advisor: Dr. Kimberly Farah, Associate Professor and Department Chair, Lasell College, Massachusetts

M.A. in Physics, State University of New York at Buffalo (SUNY), 1999

B.S. in Physics, State University of New York at Buffalo, (SUNY), 1974

B.S. in Electrical Engineering, State University of New York at Buffalo, (SUNY), 1974

LICENSURE AND CERTIFICATIONS:

1986 Professional Engineer License, State of New York

RESEARCH SKILLS:

-Design of Instrumentation, specialized in Bioelectromagnetics
-Laboratory testing and measurements

LANGUAGES:

-Fluent in English, FORTRAN, BASIC, 6800 & 6502 Assembly languages
-Can read some German and Spanish

PROFESSIONAL EXPERIENCE:

1991-Present INTEGRITY RESEARCH INSTITUTE Washington, DC
President

Editor, *Future Energy Annual*, scientific studies, report generation, editing services, patent application drafting. Technical consultation for physicists, inventors, entrepreneurs, law firms, authors, video producers. Clients include Global Atomics, Inc., Lightworks AV, Alternative Energy Institute,

Starburst Foundation, The Magnetizer Group, Saladoff and Associates, ELF International, Sachs-Freeman Associates, Newline Investments, NuCove Development Corp. Services provided: Electrical product design/development, engineering testing, expert testimony and declarations, environmental/electromagnetic field/energy consulting, proposal writing, technical writing.

**1996-99, 2005-08 U. S. PATENT & TRADEMARK OFFICE Alexandria, VA
Patent Examiner**

Physics, Measuring, Testing, Instrumentation Class 324, Art Unit 2858, GS-12. Electric and nonelectric properties, testing in specific environments, calibrating electric meters, sensing electricity, internal combustion engine ignition system, electromechanical switching devices, thermoelectric properties, electrostatic field sensing, fault detection, impedance/admittance testing, power measurement, motors/generators. Elected as Board member of the PTO Society, 1999.

**1987-1990 INTEGRITY RESEARCH CORPORATION Buffalo, NY
Engineering Manager**

Responsible for Engineering Department projects, managed engineers and technicians, designed power line gaussmeters and fieldmeters, static gaussmeter, geomagnetometer, and ELF spectrum analyzer, trained industrial interns from SUNY at Buffalo, designed 2% accuracy calibration procedures, designed specification sheets and training manual, represented company at shows, conferences. Administered sale of instrument rights to Chief Engineer who formed www.IntegrityDesign.com upon departure.

**1981-1986 ERIE COMMUNITY COLLEGE (SUNY-ACCREDITED) Buffalo, NY
Instructor**

Physics, Robotics, & Electrical Tech Depts. - Courses taught included Engineering Physics, Technical Physics, Introductory Physics, AC Electricity, Electronics, Digital Logic, Microprocessors (6502), Environmental Science, as well as laboratory sessions for above courses. Designed Instrumentation & Process Control Curriculum at direction of College President. Participated in Project Outreach by teaching SUNY-contract microprocessor courses (6800) at General Motors Chevrolet Plant, Tonawanda, NY.

**1976-1980 SCOTT AVIATION, DIV. OF ATO, INC. Lancaster, NY
Research Scientist**

Research & Development Department - Developed gas detection linearization circuit for Series 9000 instruments, directed planning/installation of computerized test facility for catalytic sensors, performed feasibility study of non-pressurized zeolite oxygen tank for firemen, published design articles, managed acquisition and installation of computer network, numerous sensor circuit design and testing projects. Advanced to Director of Research & Development in fourth year.

PROFESSIONAL MEMBERSHIPS:

- Institute of Electrical and Electronic Engineers
- American Institute of Aeronautics and Astronautics
- Bioelectromagnetics Society
- Union of Concerned Scientists
- National Space Society

HONORS AND AWARDS:

- 2005. Consulting Fellow of the World Innovation Foundation, United Kingdom
- 2002. Marcel Vogel Service Award. Board of Directors of the United States Psychotronics Association
- 1996. Certificate of Accomplishment. US Department of Commerce, Patent & Trademark Office, APS Text Search and Retrieval
- 1989. Certificate of Appreciation. State University of New York at Buffalo, Faculty of Engineering and Applied Sciences, Industrial Internship Program, Program Coordinator, David Benenson, PhD
- 1988. Who's Who of Writers and Poets. Publications Board of the December Press, Inc.
- 1988. Certificate of Appreciation. State University of New York at Buffalo, Faculty of Engineering and Applied Sciences, Industrial Internship Program, Program Coordinator, David Benenson, PhD
- 1987. Certificate of Accomplishment. MC 68020 Microprocessor Course, Motorola Inc.
- 1986. Certificate of Participation. National Science Foundation Chautauqua-Type Short Courses for College Teachers, The Personalities of 20th Century Physics: Their Interactions and Struggles, University of Dayton, Course Director: Max Dresden, PhD
- 1982. Certificate of Participation. National Science Foundation Chautauqua-Type Short Courses for College Teachers, E-3 Qualitative Physics, Hampshire College, Course Director: Victor Weisskopf, PhD
